

Business

Sempra Energy is an energy infrastructure company with 2018 earnings of \$924 million. Our companies' 20,000 employees serve more than 40 million consumers worldwide.

- > We are the utility holding company with the largest U.S. customer base.
- > Total shareholder return over the past 10 years:

Our businesses operate a wide range of energy infrastructure, including:

> 188,000 miles of electric transmission and distribution lines (enough to go more than seven times around the world!)

- > 120,000 miles of natural gas pipeline
- > **5 LNG** projects under development
- > 400 megawatts of wind power, with partners
- > 110 megawatts of solar power, with partners

Our vision, mission and values provide the foundation for a vibrant highperformance culture.

¹ 2018 performance except where noted.

Environmental

We minimize our impact, manage climate risks and identify climate-related opportunities.

- > Approximately 45% of the energy SDG&E delivered came from renewable sources.
- > **20%** of the natural gas SoCalGas delivers to its core customers is anticipated to be from renewable sources, such as agriculture, by 2030.
- > We avoided withdrawing 2 billion gallons of water by using dry-cooling technology and reclaimed or recycled water in power generation operations.

> The state of Texas has nearly
22,000 megawatts of wind
generation capacity, the most
of any state in the U.S. Our
Texas utility, Oncor, is helping to
deliver this clean energy to homes
and businesses throughout its
service territory.

Social

Delivering energy with purpose means improving the lives of those we serve.

- > We distributed \$9.9 billion to our stakeholders in the form of wages and benefits; payments to vendors; dividends and interest; fees and taxes; and charitable contributions.
- > We gave **\$24 million** to more than 1,700 community organizations.

- > 53% of our U.S. workforce are people of color. Our Chairman and CEO has signed onto the Paradigm for Parity, a nationwide coalition of companies dedicated to the aspirational goal of reaching gender parity in upper management by 2030.
- > Employee safety performance included record low OSHA recordable incident rates at our California utilities, and a companywide OSHA recordable injury rate of 1.66 incidents per 100 full time workers.

Governance

Our vision, mission and values provide the foundation for a vibrant, high-performance culture.

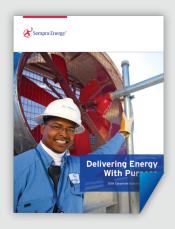

- > **87%** of our board is independent; the average board member tenure is **6.1 years**; and **60%** of our board is women and/or people of color (compared with 34% in the Fortune 500).^{1,2}
- The Environmental, Health, Safety & Technology committee of our board oversees topics closely related to climate change and the long-term sustainability of Sempra Energy.
- > We scored **97.1%** on the CPA-Zicklin Index for political disclosure and accountability (only 57 S&P 500 companies scored 90% or higher).
